

PRIVATE HEALTH SERVICES REGULATORY COUNCIL

07/11/2014

To All Private Medical Centers /Chief Executive Officers/ Medical Directors/
Medical Officers in Charge,

Medical Centres

Private Health Services Regulatory Council (PHSRC) has received several complaints through different channels including direct communication from customers, community action groups, Consumer Affairs Authority and Presidential Secretariat regarding high consultation fees and exorbitant charges imposed by Private Medical Centres.

After much deliberations including obtaining views and observations from different stakeholders and careful evaluation of the situation, PHSRC at its meeting held on 08/08/2014 decided to request all Private Medical Centres to comply with following with regards to Centre charges for the benefit of general public.

You are hereby requested to adhere to the prevailing Centre charge of SLR 100 to SLR 500 per consultation. No Private Medical Centre is expected to exceed this limit until further notice. Every Private Medical Centre should display the prevailing Centre charge to be easily viewed by the public and if unable or difficult to comply in print mode, could do so electronically.

Your kind cooperation in this regard is greatly appreciated.

Dr. Kanthi Ariyaratne
Secretary
Private Health Services Regulatory Council
